Value Based Education is an approach to teaching that works with values. It creates a strong learning environment that enhances academic achievement and develops students' social and relationship skills that last throughout their lives. Value based education can strengthen students' **Optimism, Self-esteem, Commitment to personal fulfillment, Ethical judgment and Social responsibility.**

The Kalgidhar Trust organized a lecture on “**VALUE BASED EDUCATION –by living life in the true spirit of selfless service i.e. SHARING AND GIVING**” at Akal Academy Phaphre Bhaikhe on 23rd January 2020. Honorable Mr. Bhupinder Singh Kohli, **social activist, motivator and real trooper**, shared his life experiences and sparkling views with the entire faculty and students. He described the humanity of animals and animality of humans.

The session started with the welcome song followed by a welcome address by Principal or faculty and introduced the speaker and expressed their words of gratitude to the speaker and addressed the students regarding contents of lecture.

The objective of this lecture was to integrate value based education into the quality of education and positive school environment. The lecture explored that values are essential building blocks on which an education for a humanistic and international society must be built on. This included increasing gap between ways of thinking and behavior of an ideal society and actual world considered to be indicator and ignition for number of social problems.

Our academy learnt about the following points

- We have to inculcate humanity among our future leader
- Think about society not only individual life
- We all have learnt about path of Guru Nanak Dev ji.
- We have learnt about value based chart by videos
- Think about humanity not only for individual life.

Social work, Humanity, kindness, unity and so many moral value chart share with us. Even also share motivational videos also during the session.

Kohli sir discussed about age factor like till 25 learning and up to 50 earning age but after that also we have to keep our mentality too young, and also shown video on it. He has shared so many examples of his real life for our motivation with which we can understand how to be helpful for others after natural disaster or on any happening time.

Also discussed about family, unity, determination and heavy words like Please/Thank you/ Sorry with real life examples and with videos. I hope we will be really served as a social worker in future.

And also share about Charity like we have to be a part of any foundation. Even also tell to children about baba ji and one chain of schools run under the Kalgidhar trust and also so many works are being done by our Trust.

So whole session which is started with the blessing of Shri Guru Nanak dev ji how we have to follow path of our first guru with the help of this we can do social work also. Example which is given by Kohli sir is very motivational for us and for our children also.

We are heartily thankful to Kohli sir and also our head office for organizing such kind of seminar which is very valuable for us and for our children also. We are really impressed from such socialist personality and try to apply their motivation in our life.
